Professional Summary

Results-driven Civil Engineer transitioning into AI Automation and Workflow Development with hands-on experience building AI chatbots, workflow automations, appointment setter systems, and AI receptionist solutions using n8n, Make.com, Zapier, OpenAI APIs, Google Workspace, Meta integrations, and webhook automation.

Experienced in designing scalable automation workflows for customer support, lead generation, appointment scheduling, CRM integrations, and business process automation. Strong analytical and problem-solving skills developed from over 10 years of engineering and project management experience.

Passionate about helping businesses automate operations, improve customer engagement, and increase efficiency through AI-powered systems.

Core Skills

AI & Automation

- Make.com Automation
- Zapier Automation
- AI Chatbot Development
- AI Receptionist Systems
- OpenAI / ChatGPT API Integration

- Prompt Engineering
- API Integrations
- Webhooks
- CRM Automation
- Lead Generation Automation

Platforms & Tools

- Google Calendar API
- Google Sheets Automation
- Gmail Automation
- Facebook Messenger Automation
- Instagram DM Automation
- Meta Webhooks
- HTTP Requests
- JSON Handling
- REST APIs

Technical Skills

- Workflow Design
- Process Automation
- Data Mapping
- Error Handling
- Filters & Conditions
- Branching Logic
- AI Agent Integration
- Automation Architecture

Engineering & Project Management

- Project Management

- Construction Management
 - Billing Documentation
 - Quality Inspection
 - AutoCAD
 - MS Project
 - Bluebeam
 - Planswift
-

Certifications

AI Automation with n8n — Technical Virtual Assistants PH

Completed comprehensive AI automation training covering:

- AI Agents vs AI Workflows
- n8n Server Setup
- Workflow & Node Management
- Triggers & Actions
- API Integrations
- AI Agent Connections
- Data Processing & Automation

Date Completed: April 29, 2026

No Code Automation with Make.com — Technical Virtual Assistants PH

Completed training covering:

- Make.com Interface
- Scenario Structures
- Triggers & Filters
- Connecting Applications

- Actions & HTTP Requests
- Error Handling

Date Completed: April 3, 2026

No Code Automation with Zapier — Technical Virtual Assistants PH

Completed training covering:

- Zapier Interface
- Triggers & Filters
- Formatter by Zapier
- Delay & Paths
- Webhooks
- AI by Zapier
- Sub-Zaps & Looping

Date Completed: March 28, 2026

AI Automation Projects

AI Dental Clinic Receptionist & Appointment Setter

Developed an AI-powered receptionist system for a dental clinic using:

- n8n
- Google Calendar
- Google Sheets
- OpenAI
- Facebook Messenger

Features:

- Automated appointment booking
- Schedule checking

- Appointment rescheduling/cancellation
 - AI customer support
 - Automated email confirmations
-

Facebook & Instagram AI Chatbot Automation

Built AI chatbot systems integrated with Meta platforms capable of:

- Auto-replying to inquiries
 - Capturing leads
 - Sending automated follow-ups
 - Managing customer conversations
 - CRM data collection
-

AI Lead Generation Automation

Created workflow automations for businesses that:

- Capture leads automatically
 - Qualify inquiries
 - Send automated responses
 - Organize customer data
 - Integrate with Google Sheets and CRM tools
-

Professional Experience

Project Manager / Civil Engineer

Various Construction Projects — Philippines
2014 – Present

Responsibilities:

- Managed construction projects and subcontractors

- Prepared bidding and billing documentation
- Conducted quality inspections and material evaluations
- Coordinated project schedules and workflows
- Supervised project execution and reporting

Major Projects:

- Buliluyan Port — Bataraza, Palawan
 - Babuyan Bridge — Puerto Princesa City
 - Tanatanaen Bridge — Dumarán, Palawan
 - 4-Storey Hotel Construction
 - Solar Street Light Projects
 - Commercial & Residential Buildings
-

Education

Bachelor of Science in Civil Engineering
Philippines

Licensed Civil Engineer
